

Everything will be Ukraine!

We have all changed after February 24, and we will no longer be the same as we were before the start of the war unleashed by Russia in Ukraine. No one believed to the last that a war could happen, and even more so a second time, when part of our population (inhabitants of Luhansk, Donetsk regions, and Crimea) forcibly became displaced persons on the territory of Ukraine in 2014. Who could believe that our "friendly" Russian people, with whom each of us has ties, would attack us. And they are not just relatives, but the same Slavic blood flows in our veins. Because, even, among my parents, one is Russian, and one is Ukrainian. And could you imagine that your closest brothers and sisters living in Russia could call, write and say that they are going to kill us, so you should hide...

We will never again be able to communicate with our colleagues from Russia and Belarus without prejudice, because we will not have enough strength to forgive them for their tacit consent and support for the actual killing of civilians of Ukraine, watching their unarmed colleagues being shot from tanks, pelted with rockets, and bombs thrown from airplanes. Moreover, they are on the side of those who kill completely innocent people, because this is done by the Russian army, which came to liberate them and us from the Bandera people who humiliate the Russians on the territory of Ukraine... This is how the Russian nation could be probed in such a way that highly intellectual people, the flower of the nation did not understand and perceive the state of affairs, the situation in which the citizens of Ukraine found themselves at one point? It remains only for all such zombified moral freaks to say: "People are animals!" But to remind them of the well-known saying: "Who among us with a sword will come by the same sword and perish!"

Today, you probably won't find a single person in Ukraine who doesn't believe in the victory of Ukraine, in the strength and spirit of our armed forces, in the soldiers of the Teroboron, in the support of our rearguards, who each of them with their work brings us all closer to peace, and in the power of all Ukrainians! It is impossible to defeat such a nation, because we were born here, we live on our own piece of land, we are free people - the modern property of our democratic independent country, its intellectual and creative potential. We can do anything, we will definitely win and prove to the whole world that we are the real grandchildren and great-grandchildren of the Cossack family!

That's why we continue to work, because life moves forward, no matter what! Send us your articles, discuss with us the economic problems that are currently facing the country, before each of us, who must bring the good, the smart and the eternal to our new generation of future professionals, who together with us will rebuild our renewed free, undefeated Ukraine. Take care of yourself, take care of your families; worry about loved ones, friends and acquaintances; help each other, be healthy, courageous and strong! And everything will be Ukraine!
